PROFESSIONAL SUMMARY

TypeScript Tech Lead skilled in aligning architecture and engineering practices, driving team growth, and delivering hands-on contributions across projects. Expert in frontend and backend development, system architecture, and continuous integration.

WORK EXPERIENCE

Keolis

May 2021–Present

Tech Lead

- Supported daily use by over ten city networks, each with ten to eighty operators
- Led memory leak resolution in frontend map animations, accelerating app navigation by 50%
- Implemented GraphQL dataloaders and Databricks caching, reducing large request times from 20 seconds to five seconds
- Proposed schema-first solution with compressed JSON for maps, cutting loading time from over three minutes to five seconds
- Increased sprint velocity by 70% over two years
- Reduced production bugs with E2E testing from one per sprint to one per five sprints
- Achieved deployment pipeline success rate of 95%, up from 50%, with coverage above 70%
- Set up AI code cleaning loops, reducing duplications by at least 50% and increasing coverage by at least 5%
- Enabled marketing to win tenders through ridership, punctuality, interactive maps, and full-day replay features
- Improved rendering for large city lists with virtual scrolling and load-on-scroll, eliminating lag and bloat

ENGIE

Apr 2020–May 2021

Full-Stack Developer

- Rewrote B2B application as part of a team of six developers, one QA, and one DevOps using React, GraphQL, Prisma, AWS Lambda, OKTA, TDD, and AWS architecture

Freelance

Dec 2019–Apr 2020

Other Freelance Work

- Built Meet My Mentor end-to-end (frontend, backend, infra), shipping a masterclass VOD platform using React, Next.js, GraphQL, MongoDB, AWS S3, CloudFront, Lambda

Les Sherpas

Jun 2015–Dec 2019

Co-Founder & CTO

- Designed and built the site, marketplace, and online tutoring platform for over five hundred teachers and one thousand students
- Developed realtime classroom with video, shared whiteboard, text editor, and chat using Socket.io
- Built marketplace matching and ranking; integrated Stripe Connect payments and serverless AWS API
- Led React/Next.js web app and React Native mobile app development; managed three developers on internal dashboards

PROJECTS

Lumpcode

- Git-first agent orchestration CLI: git is the only gate. Opens PRs on its own for migrations, roadmaps, backlogs.

EDUCATION

École 42, Paris, France Sep 2019
Master of Science in Architecte Au Numérique

ESCP, Paris, France Sep 2019
Master in Management in Programme Grandes Ecoles

Université Paris Sorbonne, Paris, France Sep 2016
Licence 3 in Mathematics and Probability

CORE SKILLS

- | | |
|--------------------|--------------------------|
| • Architecture | • Next.js |
| • CI/CD | • REST |
| • Pair Programming | • GraphQL |
| • TypeScript | • WebSockets |
| • Backend | • Azure |
| • Frontend | • DevOps |
| • Node.js | • Refactoring |
| • Express | • Code Reviews |
| • React | • System Architecture |
| • Vue.js | • Continuous Integration |

CERTIFICATIONS

Vue.js Certified Senior Developer, Certificates.dev

LANGUAGES

French (Native), English (Fluent)
